Took me a bit to figure out that in order to find the music files, you had to locate the game file on steam, But now that I'm able to listen to it, I really enjoy it.

WARNING: nearly half of it is the dance music on a 3 minute loop, so for those who aren't into that, be warned.. Awesome soundtrack! Really sets the tone for the game. Also, pretty sure if you buy the soundtrack Jake Butineau stops hunting you down like a Terminator across the map in-game.

UPDATE: He does not stop
